When purchasing a RAPIDO, the unladen weight includes the weight of the vehicle's standard equipment. The unladen weight of vans is determined in compliance with current legislation and includes the weight of the vehicle in working order, driver (75 kg), gas bottle, fresh water (20 L) and fuel tanks filled to 90% of their capacity with a tolerance of +/-5%. All of our vehicles are certified in accordance with Regulation 1230/2012. It is therefore the responsibility of the user to adjust the load and the number of passengers on board according to the permissible GVW, the payload and the weight of any additional equipment he installed or has had installed in the vehicle.

* Overall height = +45 mm with HEAVY chassis and/or 16" wheels.

** Fresh water tank can be filled up to 110 l, which results in a lower payload.

*** 140 hp - 58 kg, 160/180 hp - 15 kg.

RHD = RIGHT HAND DRIVE special pack (UK, Ireland and Newzealand customers only).

****Check the release date with your dealer.

RIGHT HAND DRIVE *Special pack*

With RAPIDO make sure you won't miss a thing

Especially for our customers in UK, Ireland and New Zealand we have created the most comprehensive equipment level ever, and combined it all into a new "Right Hand Drive special" pack*. It contains options improving your driving safety, as well as a great number of elements enhancing design and everyday comfort – we want to make sure that you really feel at home in your RAPIDO!

RAPIDO Vans of the 2022 collection based on RHD chassis come with particularly complete equipment, including :

- Carpet kit (cab and living area)
- Oven
- Leather steering wheel and gear knob
- Radio controls on steering wheel

* See details per model in the technical guide. All mentioned options are included in the vehicle price for Right Hand Drive models. The weight of these options is detailed in the technical specifications, and not included in the GVW – it therefore must be deducted from the payload.
