## TECHNICAL DATA

### REMEMBER

When purchasing a RAPIDO, the unladen weight includes the weight of the vehicle's standard equipment. The unladen weight of motorhomes is determined in compliance with the laws currently in force and includes the vehicle in working order, the driver (75 kg), the gas bottle, fresh water (20 L) and fuel tanks up to 90 % of their capacity with a tolerance of +/- 5 %. All of our vehicles are certified in accordance with Regulation 1230/2012.

It is therefore the responsibility of the user to adjust the load and the number of passengers on board according to the permissible GVW, the payload and the weight of any additional equipment he installed or has had installed in the vehicle.

\*\* 140 hp: 58 kg, 160/180 hp: 15 kg.

\*\*\* Operates on 230 V only.

\*\*\*\* Check the release date with your dealer.

\*\*\*\*\* Not available for right hand drive.

All data (weight / measures) are indicated with a tolerance of 5%.

FIAT chassis: definition of the carriers different from the original commercial definitions of the chassis manufacturers.

Unladen weight: the value shown in the catalogue based on a manual gearbox and entry level engines with no towing capability.

Any accessories installed optionally or by the distributor are not included in the definition of the vehicle's unladen weight. The weight of these elements must therefore be deducted from the vehicle's payload.

# SERIE 8F

## TECHNICAL DATA

### REMEMBER

When purchasing a RAPIDO, the unladen weight includes the weight of the vehicle's standard equipment. The unladen weight of motorhomes is determined in compliance with the laws currently in force and includes the vehicle in working order, the driver (75 kg), the gas bottle, fresh water (20 L) and fuel tanks up to 90 % of their capacity with a tolerance of +/- 5 %. All of our vehicles are certified in accordance with Regulation 1230/2012.

It is therefore the responsibility of the user to adjust the load and the number of passengers on board according to the permissible GVW, the payload and the weight of any additional equipment he installed or has had installed in the vehicle.

**855F**

#### VEHICLE DIMENSIONS (M)

Overall length	6,70	6,79
Overall width	2,35	2,35
Overall « parking » width with rear view mirrors open	2,76	2,76
Overall height [A]	2,89	2,89

#### SEATS

Number of seatbelts	2+2	2+2
Number of seats (vehicle certificate)	4	4
Number of dining seats	7	5
Sleeping spaces	2+2	2+2
Sleeping spaces (with drop-down bed option)	2+2+2	-
Sleeping spaces (« no cab bed » option)	-	2

#### WEIGHT

Gross vehicle weight	LIGHT : 3,5 T / 3,65 T	LIGHT : 3,5 T / 3,65 T
Permissible GCW (Gross Combined Weight) [B]	LIGHT : 5,5 T	LIGHT : 5,5 T
Mass in running order (MIRO) (kg)	3050	3055
Payload (kg)	450	445

#### CHASSIS

Chassis	FIAT	FIAT
Engine equipment	2,2 L - 140 hp	2,2 L - 140 hp
Anti-pollution standard	EURO 6d-Final	EURO 6d-Final
Wheelbase (m)	4,035	3,8
Wider rear track (m)	1,98	1,98

#### STORAGE AREA/GARAGE (CM, MAXIMUM)

Width	58	114
Length	217	217
Height	120	120
Right side access (H x W)	110 x 61	110 x 87
Left side access (H x W)	66 x 36	70 x 87
Heated	Yes	Yes

#### HEATING

Type of heating	Truma Combi 6 CP PLUS	Truma Combi 6 CP PLUS
-----------------	-----------------------	-----------------------

#### BED SIZES (MM)

Rear bed	-	850 x 1940 + 850 x 2040
King size bed extension	-	1370 x 2060
Extra dinette bed	1500 x 2000	-
Drop-down bed	O 1400 x 1950	-
Overcab drop-down bed	1400 x 1910	1400 x 1910

#### AUTONOMY (L)

Capacity of fresh water tank [C]	120/20	120/20
Capacity of waste water tank	120	120
Type of refrigerator	Absorption	Absorption
Refrigerator capacity	128	91
Gas bottle capacity	2 x 13 kg propane	2 x 13 kg propane

\* GVW 3500 kg = 4 registered seats without towing capability (except 140 hp Automatic gearbox) / 3 registered seats with towing capability, or 140 hp Automatic gearbox ;  
GVW 3650/4400 kg = 4 registered seats

\*\* GVW 3500 kg = 4 registered seats / 3 registered seats in 140 hp automatic gearbox ; GVW 3650/4400 kg = 4 registered seats

\*\*\* GVW 3500 kg = 4 registered seats with 140 hp manual gearbox, or 160 hp/180 hp without towing capability / 3 registered seats with 140 hp automatic gearbox, or 160 hp/180 hp with towing capability ;  
GVW 3650/4400 kg = 4 registered seats

\*\*\*\* HEAVY chassis: GVW = 4400 kg (160 hp/180 hp) (option at additional cost)

[A] Overall height = +45 mm with HEAVY chassis and/or 16" wheels

[B] GVW 3500 kg → GCW 5500 kg ; 3650 kg → 5650 kg ; 4400 kg → 6000 kg

[C] Fresh water tank can be filled up to 120 L, which results in a lower payload.

\*\*\* 140 hp: 58 kg, 160/180 hp: 15 kg.

\*\*\*\* Check the release date with your dealer.

\*\*\*\*\* Not available for right hand drive.

All data (weight / measures) are indicated with a tolerance of 5%.

FIAT chassis: definition of the carriers different from the original commercial definitions of the chassis manufacturers.

Unladen weight: the value shown in the catalogue based on a manual gearbox and entry level engines with no towing capability.

Any accessories installed optionally or by the distributor are not included in the definition of the vehicle's unladen weight. The weight of these elements must therefore be deducted from the vehicle's payload. 13

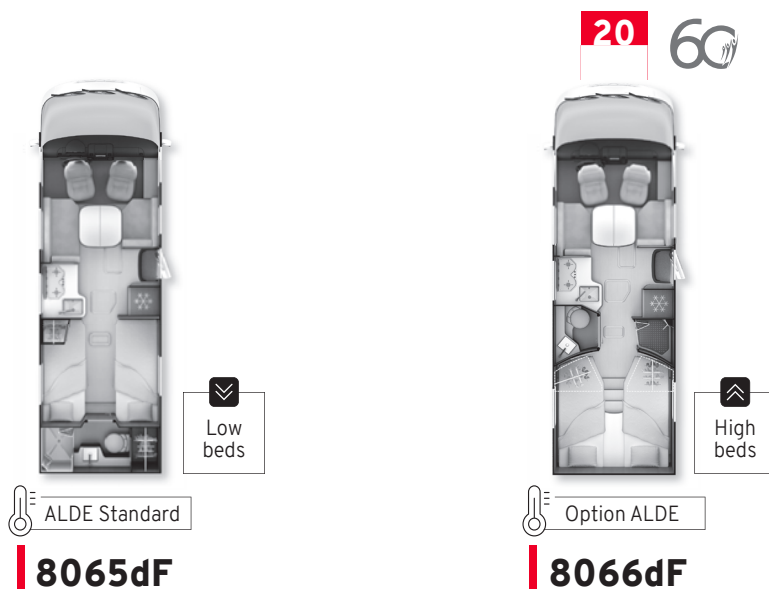

# SERIE 80dF

## TECHNICAL DATA

### REMEMBER

When purchasing a RAPIDO, the unladen weight includes the weight of the vehicle's standard equipment. The unladen weight of motorhomes is determined in compliance with the laws currently in force and includes the vehicle in working order, the driver (75 kg), the gas bottle, fresh water (20 L) and fuel tanks up to 90 % of their capacity with a tolerance of +/- 5 %. All of our vehicles are certified in accordance with Regulation 1230/2012.

It is therefore the responsibility of the user to adjust the load and the number of passengers on board according to the permissible GVW, the payload and the weight of any additional equipment he installed or has had installed in the vehicle.

VEHICLE DIMENSIONS (M)

\*\*\*\*\* Not available for right hand drive.

All data (weight / measures) are indicated with a tolerance of 5%.

FIAT chassis: definition of the carriers different from the original commercial definitions of the chassis manufacturers.

Unladen weight: the value shown in the catalogue based on a manual gearbox and entry level engines with no towing capability.

Any accessories installed optionally or by the distributor are not included in the definition of the vehicle's unladen weight. The weight of these elements must therefore be deducted from the vehicle's payload. 17

# SERIE DISTINCTION

## TECHNICAL DATA

### REMEMBER

When purchasing a RAPIDO, the unladen weight includes the weight of the vehicle's standard equipment. The unladen weight of motorhomes is determined in compliance with the laws currently in force and includes the vehicle in working order, the driver (75 kg), the gas bottle, fresh water (20 L) and fuel tanks up to 90 % of their capacity with a tolerance of +/- 5 %. All of our vehicles are certified in accordance with Regulation 1230/2012.

It is therefore the responsibility of the user to adjust the load and the number of passengers on board according to the permissible GVW, the payload and the weight of any additional equipment he installed or has had installed in the vehicle.

All data (weight / measures) are indicated with a tolerance of 5%.  
FIAT chassis: definition of the carriers different from the original commercial definitions of the chassis manufacturers.  
Unladen weight: the value shown in the catalogue based on a manual gearbox and entry level engines with no towing capability.  
Any accessories installed optionally or by the distributor are not included in the definition of the vehicle's unladen weight. The weight of these elements must therefore be deducted from the vehicle's payload. 23

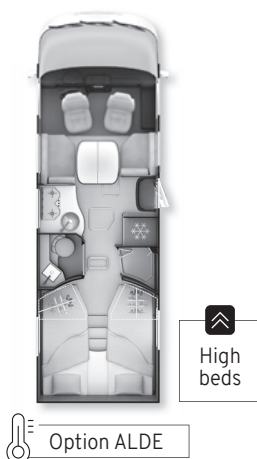

# SERIE M

## TECHNICAL DATA

### REMEMBER

When purchasing a RAPIDO, the unladen weight includes the weight of the vehicle's standard equipment. The unladen weight of motorhomes is determined in compliance with the laws currently in force and includes the vehicle in working order, the driver (75 kg), the gas bottle, fresh water (20 L) and fuel tanks up to 90 % of their capacity with a tolerance of +/- 5 %. All of our vehicles are certified in accordance with Regulation 1230/2012.

It is therefore the responsibility of the user to adjust the load and the number of passengers on board according to the permissible GVW, the payload and the weight of any additional equipment he installed or has had installed in the vehicle.

<b>Traffic sign recognition system:</b> Displays authorised speed limits and no-overtaking zones on the dashboard screen	•
<b>Rain and dusk sensor:</b> The rain sensor triggers the windscreen wipers and adjusts their speed. The light sensor automatically activates dipped headlights	•

## EASY DRIVING PACK\*

	C, 6F
Smart, adaptive cruise control with traffic sign recognition system	•
Driver drowsiness detection	•

## ADVANCE SAFETY PACK\*

	C, 6F
Safety PACK	•
Easy Driving PACK	•

\* Check the release date with your dealer. \*\* Not available for right hand drive.

414 RUE DES PERROUINS - CS 20019 - 53101 MAYENNE CEDEX - FRANCE - TEL. : +33 2 43 30 10 70 - FAX : +33 2 43 30 10 71

In addition to the contractual 2-year warranty for your vehicle and the manufacturers' warranties on original accessories installed during assembly, you enjoy a 5-year warranty on furniture frames and watertightness when you have your vehicle moisture-checked annually during the 4 years after it is first registered. The warranties covering all accessories installed at the dealership are provided by the original manufacturers under their terms and conditions, through the dealer. The chassis warranty is provided by the chassis manufacturer.

Cost of transport is borne by the customer. Motorhomes, campervans and vans are designed for leisure use. Under no circumstances are they intended to be used as a permanent home. Some models presented in this catalogue may be shown with optional equipment. Non-contractual photos: stylistic elements, décor and accessories not included. Since part of RAPIDO production is intended for export, the characteristics of the models may vary from one country to another; for an exact definition of the models marketed, we request you to consult your dealer. RAPIDO reserves the right to make modifications to its models without notice. Despite the care taken in the production of this catalogue, it cannot be taken as a contractual document. Your dealer will be happy to give you any further information you may require.

**[B]** The technically permissible towable mass of the motor vehicle is a piece of information associated with the type approval of the completed vehicle. Based on the towbar that will be mounted on the vehicle and specific values given by the manufacturer of the towbar and the tow ball, the maximum trailer mass that the vehicle can pull may be less. The characteristics of towbar and tow ball resistance (in particular values D and S) are engraved on a plate fixed on it. Value D allows to calculate the maximum permissible mass for the towbar (MPM) with the following calculation:  $MPM = (D \times T \times 1000) / [(T \times 9,81) - (1000 \times D)]$ , with T = maximum vehicle mass (GVW) (in kg) and D = value (in kN) indicated on the towbar. The maximum trailer mass (in kg) is thus less than or equal to the MPM for a maximum towable mass of the vehicle that may be up to 2000 kg.
