# OPTIMAL TEMPERATURE YEAR ROUND

To ensure you can enjoy your vehicle year-round, our models are insulated using XHP - a polyether-based polyurethane compound with unprecedented insulation properties - and a 25 mm-thick Styrofoam floor.

**In fact, XHP insulation meets the NF EN 1646-1 Motorhome Standard.** It also helps eliminate thermal bridges.

Thanks to the XHP insulation system, when the outdoor temperature is  $-15^{\circ}\text{C}$ , the interior can reach  $20^{\circ}\text{C}$  in 3 hours and 32 minutes.

DREAMER insulation & heating test at  $-15^{\circ}\text{C}$ , with TRUMA COMBI 4, as per the NF EN 1646-1 standard.

# Range FUN
